

Corporate Responsibility Research Conference 2010

“Sustainability Management in a Diverse World”

Euromed Management School, Marseille, France

15-17 September 2010

Organised and hosted by Euromed Management Marseille in association with Queen’s University Management School and the University of Leeds

Call for Abstracts

Research in corporate responsibility and corporate sustainability has gained considerable momentum and recognition over the last two decades. Responsibility and sustainability have developed from niche topics into a widely accepted research area that is nowadays well established in the field of management and organisation research.

One of the most striking characteristics of the research field of corporate responsibility and sustainability is related to diversity. In fact, diversity plays a two-fold role in research on corporate responsibility and sustainability. On the one side, diversity has been identified as a key element of responsible and sustainable management. Consequently, diversity plays an important role in different areas of corporate responsibility and sustainability as for instance in stakeholder management, business ethics, corporate citizenship or biodiversity. Diversity is perceived as a valuable asset in responsible and sustainable management as it represents source of enrichment and innovation. At the same time, the preservation and development of diversity of cultures, opinions, ideas, values, but also species and ecosystems is an important aspect of corporate responsibility and sustainability.

On the other side, the research field of corporate responsibility and sustainability is highly diverse. It brings together scholars from different research areas and traditions and is oftentimes situated at the crossroads of different theories and disciplines. The diversity of topics that are being researched in the field of corporate responsibility and sustainability by using a broad range of theories, approaches and schools of thought continues to attract more and more scholars that are driven by rigorous thinking that goes beyond rigid disciplinary borders. This diversity is a valuable source of inspiration and innovation and is at the root of the dynamic development of research in corporate responsibility and sustainability.

With the CRRC 2010 we would like to put particular emphasis on diversity in corporate responsibility and corporate sustainability. This covers both, diversity as an important topic in research on corporate responsibility and sustainability as well as the diversity of topics, theories and approaches within the field of corporate responsibility and corporate sustainability research. We thus welcome research from all fields and areas related to corporate responsibility and sustainability. We would particularly like to encourage submissions that touch upon diversity in corporate responsibility and sustainability from both a conceptual as well as a practical point of view. At the same time and in order to reflect the diversity within corporate responsibility and sustainability research, we are open to a wide range of topics that include but are not limited to the following:

Corporate sustainability
Diversity management and CSR
Companies and biodiversity

Responsible human resource management
Sustainability indicators
Fair trade and ethical business

Business ethics
Stakeholder management
Sustainable entrepreneurship

CSR and sustainability in SMEs
Responsible consumerism and ethical consumers
Sustainable business models

There will also be a special track and a special issue on Responsible Leadership Psychology (see: www.crrconference.org/callforabstracts/responsibleleadershippsychologyworkshop).

PhD Workshop

There will be a pre-conference PhD Workshop on the afternoon of 15 September. This workshop will provide a basis for in-depth exchange and discussion between PhD students as well as for feedback from a panel of experienced PhD student supervisors in the field.

Best Paper Awards

The scientific committee of the conference will review all papers presented and award two prizes for the CRRC best overall paper and the CRRC best PhD paper at the conference dinner on 16 September. Criteria for the selection process are contribution to the research field, quality of the research, innovativeness, and diversity of views.

Abstracts

Initial abstracts of a maximum of 300 words should be emailed to abstracts@crrconference.org by 12 April 2010. Files should be sent in MS Word or PDF format, and the file name should be first author's surname. Please include names, affiliations and contact details of all authors. Abstracts will be reviewed and selected by the scientific committee of the conference. Authors will be notified of acceptance by 30 April 2010.

Papers

The conference papers of a maximum of 6,000 words including references should be emailed to papers@crrconference.org no later than 31 July 2010. Please note that papers will not be accepted unless speaker(s) have registered for the conference.
